

Bivalvos del Mediterráneo

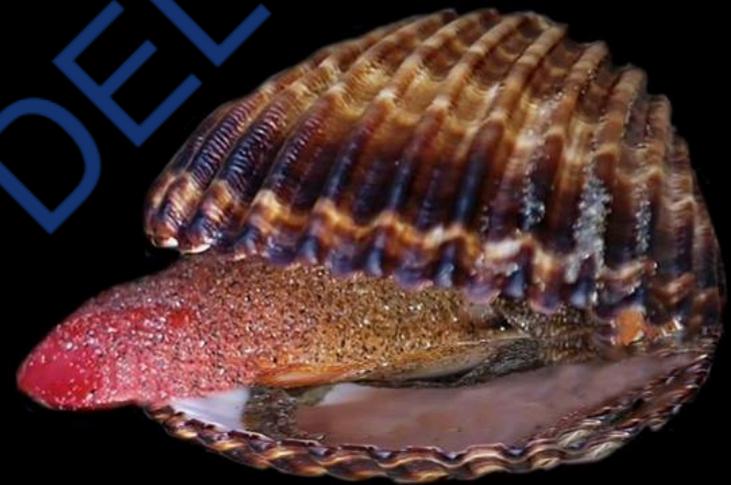

Abra alba

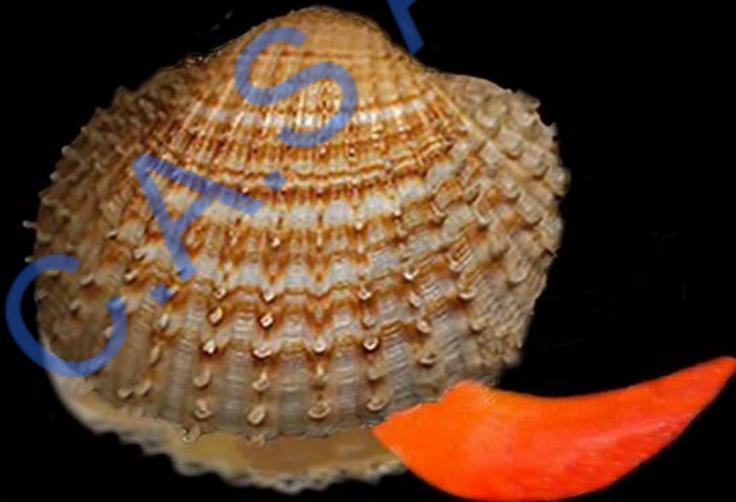

Abra nitida

Alba tenuis

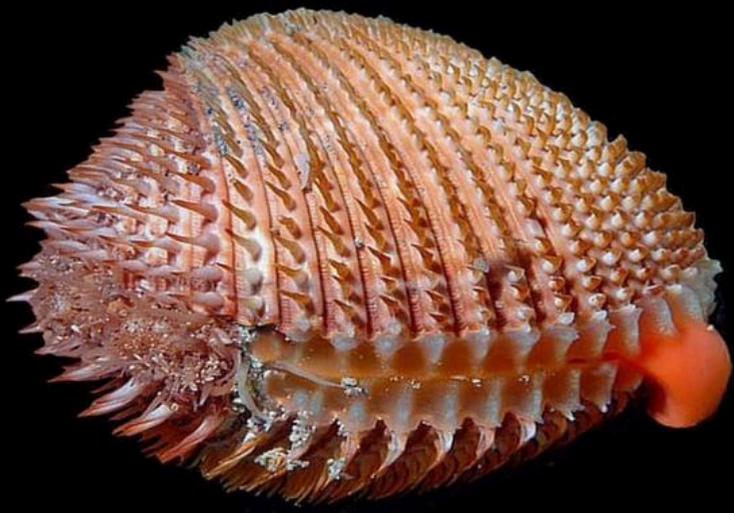

Acanthocardia aculeata

Acanthocardia deshayesii

Acanthocardia echinata

Acanthocardia spinosa

Anadara gibbosa

Anadara transversa

Acanthocardia tuberculata

Anadara tuberculosa

Arca noae

Callista chione

Cardites antiquatus

Cerastoderma edule

Cerastoderma glaucum

Chamelea gallina

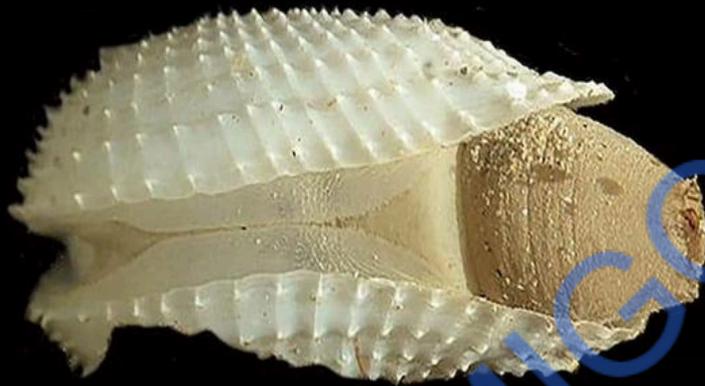

Chamelea striatula

Atrina fragilis

Arcopagia crasa

Barnea candida

Barbatia barbata

Arca tetragona

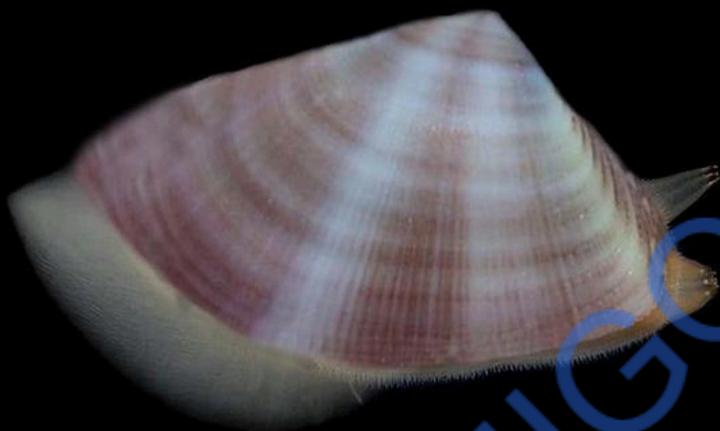

Bosemprella incarnata

Donax variegatus

Donax trunculus

Donax venustus

Donacilla cornea

Donax semistriatus

Donax vittatus

Donisia exoleta

Donisia lupinus

Cardita calyculata

Clausinella fasciata

Corbula gibba

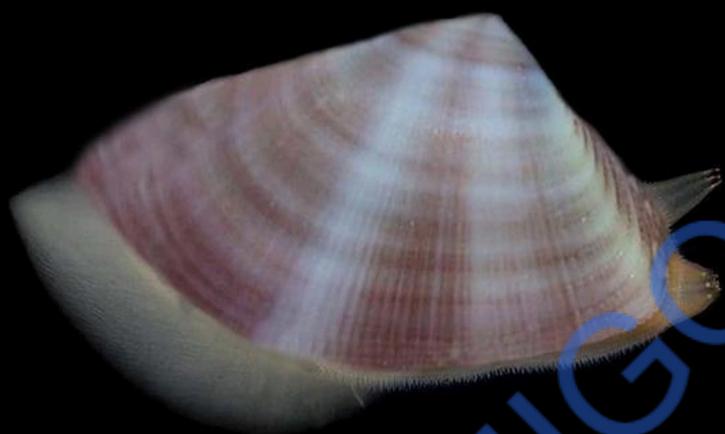

Diplodonta rotundata

Donax variegatus

Donax trunculus

Donax venustus

Donacilla cornea

Donax semistriatus

Donax vittatus

Ennucula tenuis

Fabulina fabula

Ensis ensis

Fulvia fragilis

Geleomma turtoni

Gastrana fragilis

Glycymeris glycymeris

Gari depressa

Kurttiella bidentata

Glycymeris nummaria

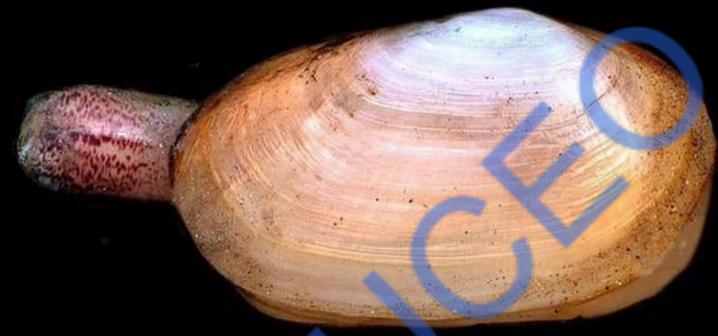

Gouldia minima

Gari fervensis

Lima hians

Lutraria lutraria

Lutraria oblonga

Lima tuberculata

Macoma melo

Lyonsia nowergica

Irus irus

Lentidium mediterraneum

Lithophaga lithophaga

Laevicardium crassum

Laevicardium oblongum

Moerella pigmaea

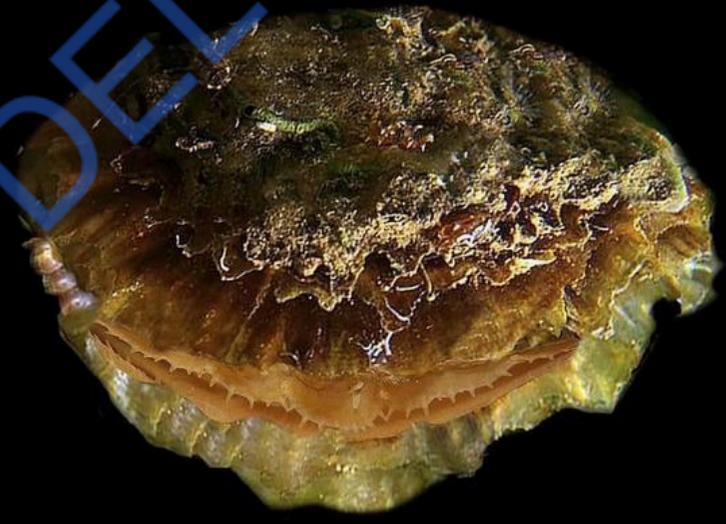

Nucula nucleus

Nuculama minuta

Oudardia compressa

Ostrea edulis

Pitar rudis

Polititapes rhomboides

Mactra glauca

Moerella donacina

Mactra stultorum

Mysia undata

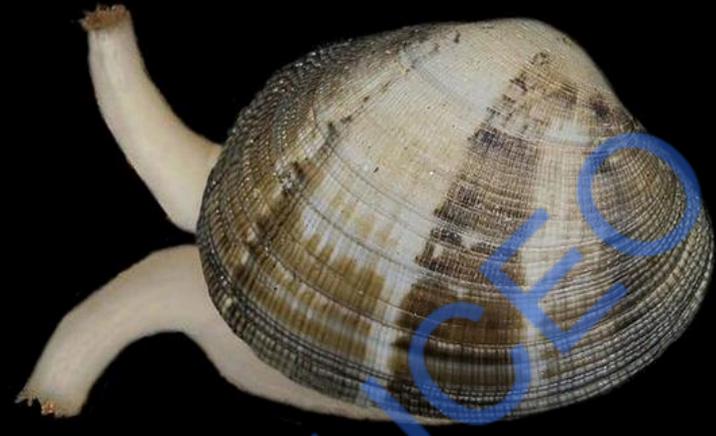

Mytilus edulis

Mytilus galloprovincialis

Parvicardium exiguum

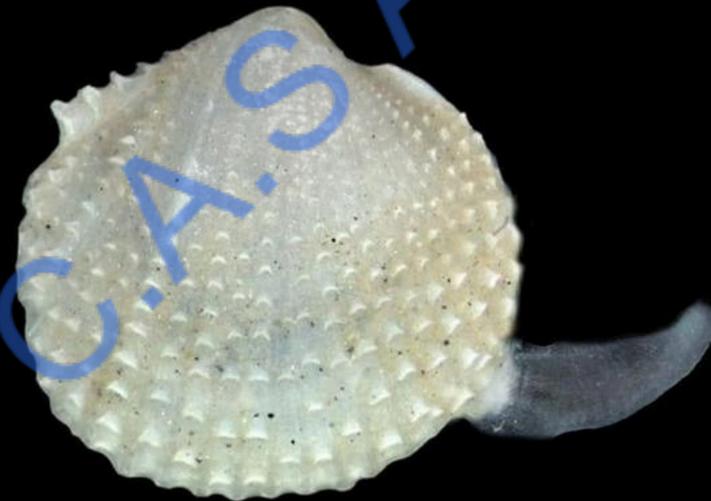

Ruditapes decussatus

Spisula solida

Parvicardium scabrum

Parvicardium minimum

Solecurtus strigilatus

Poromya granulata

Peronidia albicans

Spisula subtruncata

Scobicularia plana

Tellina serrata

Tellina tenuis

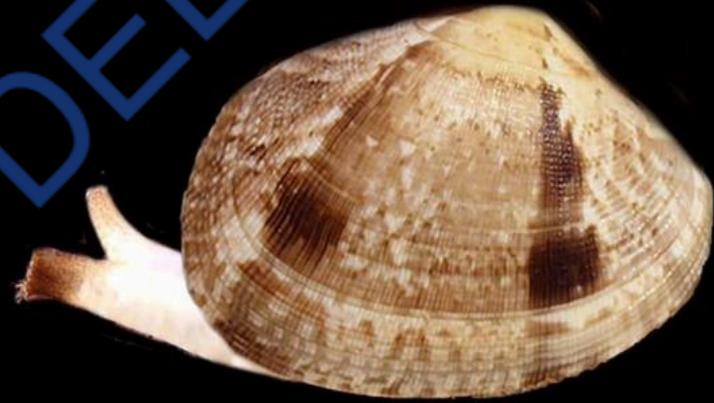

Venus casina

Venerupis aura

Venerupis corrugata
